## SCHOOL CONTRIBUTIONS AND CHARGES for 2018

The School Board has endorsed the schedule of contributions and charges for 2018. The schedule is broken into four sections and will allow you to calculate all costs that might be incurred throughout the school year.

### 1. CONTRIBUTIONS

The amount of money parents are being asked to contribute has been set within the School Education Regulations 2000 where a maximum of \$60 per student can be charged. The School Board has set an amount that is well below this maximum.

Money collected will be used to supplement school expenditure in the following areas:

- Computer consumables
- Classroom activities/consumables
- Physical Education resources
- Art resource material
- Technology and Enterprise resource material
- Photocopy paper

The annual contribution requested per child is \$40.00.

While contributions are voluntary, the School Board requests support from all parents to supplement the funding gained from other sources including the State and Commonwealth Governments. Your contribution will assist the teaching and learning programs across the school.
